Wigan Borough family hubs

Family Hubs are a new way of bringing together all the support a family may need, from pregnancy through to young people turning 19 (or 25 if they have special educational needs or disabilities). Family hubs are here to help the whole family.

Working together to support families

Here are some examples of what you might find in a Family Hub network within your neighbourhood:

- Health visiting, midwives and antenatal appointments and classes
- Activities for babies and children aged 0-5
- Activities and support for families of young people who have special educational needs and disabilities
- Support with a range of housing situations including homelessness, help with affordability, repairs and tenancy arrangements
- Help with debt and money worries including access to food parcels/pantries
- Ways to improve whole family health and wellbeing
- Ways to improve parenting and relationships including learning opportunities
- Activities and opportunities for young people
- Support with things like job searches, housing applications and booking appointments.

Where will family hubs be?
We are planning to have seven family hub networks operating across the Wigan Borough, which means if you live locally, you should always be able to find support in your neighbourhood.

When will they be here?
We have launched our first family hub, the rest will be in place by December 2024.
